### Requesting Photoprints

Due to the present temporary shortage of photoprinting paper the Library has found it necessary frequently to supply originals of journal articles rather than the photoprints.

If a photoprint is definitely preferred, please follow procedure outlined in Library Circular No. 6, which states that requests for free photoprints should be made through the Bureau's working tool representative. Please use form Ad-245 with the word "photoprint" written in the upper right hand corner.
